APPLICATION FORM

City Index Australia Pty Ltd. trading as FX Solutions Australia (**we, us or our**) would like to thank you for your interest in FX Solutions.

SECTION 1: RETAIL OR WHOLESALE QUESTIONNAIRE:
Before we trade with you, we need to establish whether you are a **retail investor** or a **wholesale investor**.

By definition, you will be a retail investor if you do not qualify as a wholesale investor - please see below.

If you are a resident of Australia and a **retail investor**, you must read our Combined Financial Services Guide (**FSG**) and Product Disclosure Statement (**PDS**) for FX Solutions which discloses the risks associated with Contracts for Difference and FX Contracts (**Contracts**) and amounts payable to us should you enter into Contracts.

In the Section I table below, if you reside in Australia, please declare that you are an Australian resident, and declare yourself as either a retail or a wholesale investor.

If you believe you are a wholesale investor, you need to establish this by satisfying any one of options 1, 2 or 3 below and indicating this in the Section I table.

Option 1: You will trade the account in connection with a business that is not a small business (Note: a small business employs less than 20 people or less than 100 if it is a manufacturing business).

Option 2: You will trade the Account other than in connection with a business; and

(a) have net assets of more than AUD2.5 million (you will need to provide a copy of a qualified accountant's certificate to prove this); OR

(b) have a gross income of AUD250,000 for each of the last 2 financial years (you will need to provide a copy of a qualified accountant's certificate to prove this).

Option 3: You will trade the account other than in connection with a business and you are a "professional investor" because:

(a) you are a financial services licensee (you will need to provide a copy of your licence); OR

(b) you are a person with at least AUD10 million in assets (including any amount held by an associate or under a trust).

If you are NOT an Australian resident, you do not need to declare yourself to be a retail or wholesale investor.

Risk Warning

You should be aware of the risks associated with trading in the Contracts. The Contracts are highly speculative in nature and prices of the underlying Instruments may become extremely volatile. The Contracts are highly leveraged. Because we normally require only low Initial Margin deposits, an extremely high degree of leverage is obtainable in the Contracts. A relatively small market movement will have a proportionately larger impact on the funds you have deposited. You may sustain a total loss of your funds. An initial deposit of $1000 will allow you to control a position of $100,000 notional value with 100:1 leverage. If you were to maximise your leverage, a market move over 1% would cause you to lose your entire cash balance. Since the possibility of losing your entire cash balance does exist, speculation in the Underlying Instruments should only be conducted with risk capital you can afford to lose which will not dramatically impact your lifestyle.

Only you can determine whether trading in Contracts is suitable for you. However, in light of the information above, FX Solutions asks that you carefully consider the risk associated with such trading. If the only form of investing that you have pursued in the past has been conservative in nature, then FX Solutions encourages you to study the Underlying Instruments prior to making any final decisions and recognise that only risk capital is suitable for such trading.
